1.0 EXECUTIVE SUMMARY

1.1 Program Summary

In November 2004, voters of the City of Los Angeles passed the Proposition O - Clean Water Bond, authorizing \$500 million of general obligation bonds for projects to protect public health by cleaning up pollution in the City's rivers, lakes, and beaches. The projects are intended to assist the City of Los Angeles in meeting Federal Clean Water Act requirements. Proposition O - Clean Water Bond will also fund improvements to protect water quality, provide flood protection, increase water conservation, provide habitat protection, and create open space.

This monthly progress report summarizes the status of activities and progress of the Proposition O - Clean Water Bond program, for October 2011.

1.1.1 Citizens Oversight Advisory Committee (COAC), Administrative Oversight Committee (AOC), and Other highlights

- The COAC meeting of October 19th was canceled.
- The AOC meeting of October 27th was canceled.

1.1.2 Key Issues

- **Projects with American Recovery and Reinvestment Act (ARRA) funding**
 - **Mar Vista Recreation Center Storm Water BMP (Mar Vista)**
 - **Santa Monica Bay Low Flow Diversion Upgrades Pkg. 1 (LFD Pkg.1)**
 - **Santa Monica Bay Low Flow Diversion Upgrades Pkg. 2 (LFD Pkg.2)**
 - **Issue:** Mar Vista, LFD Pkg. 1, and LFD Pkg. 2 are receiving ARRA funding and need to comply with the ARRA requirements.
 - **Status:** To date, 90% of the ARRA Grant funds have been received. The remaining balance is being held as retention, pending the submittal of final project reports.
 - **Action:** Bureau of Sanitation will prepare and submit the necessary reports to the grantor.

- **Hansen Dam Wetland Restoration Project**
 - **Issue:** The project site is close to Hansen Lake, which provides a valuable wetland habitat for wildlife, including Least Bell's Vireo (Vireo), a Federal and State-listed endangered avian species. Environmental mitigation measures require a biologist to perform weekly surveys to determine whether any nesting Vireos are present. If an active nest is present, a 250-ft buffer around the area shall be put in place until the area is no longer active.
 - **Status:** On 8/31/11, project biologist found that the Vireos are no longer nesting nor have dependent young. The Vireo breeding season officially ended on 9/15/11.
 - **Action:** Construction restarted on 9/6/11. This issue is resolved.

- **Machado Lake Phase 1 (Wilmington Drain) Project**
 - **Issue:** This project is on Los Angeles County Flood Control District (LACFCD) Property. LACFCD requirements for this project include increasing the capacity of the Wilmington Drain channel by removing sediment from the channel at LACFCD's cost. The agreement between the City (BOS) and LACFCD has not been finalized; but it is needed to secure the needed funding from LACFCD in order to proceed with construction.
 - **Status:** BOS, BOE and LACFCD are finalizing the terms of the agreement.
 - **Action:** City and LACFCD to resolve outstanding issues with regard to cost and maintenance responsibilities and execute the agreement.

- **Santa Monica Bay Low Flow Diversion Upgrades Pkg. 3 Project**
 - **Issue:** Excavations to verify utility locations revealed an underground Southern California Edison vault and duct bank. They are in conflict with approximately 900 feet of the new 48 inch sewer pipe that will be constructed under this project.
 - **Status:** A design revision to re-align the sewer away from the conflicting utility has been completed. California Department of Transportation (Caltrans) encroachment permit amendment was issued. BOE is working with the contractor in identifying project cost and schedule impacts.
 - **Action:** Project team will work with the contractor to schedule other work outside the affected area in the interim until the change order has been issued.

1.1.2 Key Issues (continued)

▪ **Westchester Stormwater BMP Project**

- **Issue:** Land use agreement between the City (BOS) and Los Angeles World Airport (LAWA) has not been finalized.
- **Status:** Meeting with Mayor’s Office, CLA, City Attorneys Office, BOS, LAWA, and BOE held to resolve this issue.
- **Action:** City Attorney, LAWA, and BOS are working to document and finalize resolution of land use issues.

1.1.3 Project Community Meetings Schedule

The following is a list of Proposition O project meetings with the public that occurred in October and are planned for the month of November.

4.0 PROJECT STATUS REPORT

4.1 Project Status Report

A brief status report for each project is provided on the following pages. The report identifies key project information, the planned scope of work, progress date, updated construction costs and percentage complete for all Proposition O projects.

The Percentage Complete at the far right hand column of the diagram uses a color-coding system to designate the current phase of each project.

Turquoise	Pre-Design
Yellow	Right of Way Acquisition/ Land Acquisition
Red	Design
Violet	Bid and Award
Green	Construction
Blue	Post Construction

Progress for each project is tracked by a color-coded pie chart. The color-coding system shows work completed in the darker shade of each color and the lighter shade denotes work to be completed. For example, if a project is in design the pie chart begins as light red. As progress is made, a darker red will indicate the approximate percentage of design work completed to date.
