1.0 EXECUTIVE SUMMARY

1.1 Program Summary

In November 2004, voters of the City of Los Angeles passed the Proposition O - Clean Water Bond, authorizing \$500 million of general obligation bonds for projects to protect public health by cleaning up pollution in the City's rivers, lakes, and beaches. The projects are intended to assist the City of Los Angeles in meeting Federal Clean Water Act requirements. Proposition O - Clean Water Bond will also fund improvements to protect water quality, provide flood protection, increase water conservation, provide habitat protection, and create open space.

This monthly progress report summarizes the status of activities and progress of the Proposition O - Clean Water Bond program, for March 2013.

1.1.1 <u>Citizens Oversight Advisory Committee (COAC)</u>, <u>Administrative Oversight</u> <u>Committee (AOC)</u>, and <u>Other highlights</u>

- The March 21, 2013 COAC meeting was held and the committee heard a report on the accident at the Temescal Canyon Park Stormwater Project and on the bids received for the Machado Lake Ecosystem Rehabilitation Project. The COAC approved the name change of the Strathern Wetlands Park Project to the Rory M. Shaw Wetlands Park Project. The COAC also considered and approved the Reprogramming of Proposition O Program Savings, in the amount of \$25.1 million, to Proposition O Program Contingency.
- On March 21, 2013 a Special Meeting was held for the COAC committee. The committee approved the transfer of \$11.4 million from the Taylor Yard River Park G2 Acquisition Project Set-aside to the Albion Riverside Park Project. The committee also approved the transfer of \$0.9 million from the Taylor Yard River Park G2 Acquisition Set-aside Project to the Proposition O Program Contingency.
- On March 28, 2013 the AOC met and the committee heard several reports and approved three motions. The committee heard a report on the accident at the Temescal Canyon Park Stormwater Project and on the bids received for the Machado Lake Ecosystem Rehabilitation Project. The AOC approved a motion to transfer \$11.4 million from the Taylor Yard River Park G2 Acquisition Project Set-aside to the Albion Riverside Park Project and a transfer of \$0.9 million from the Taylor Yard River Park G2 Acquisition Project Set-aside to the Proposition O Program Contingency. The AOC also approved a motion to move the Proposition O Project Savings of \$25.1 million to the Proposition O Program Contingency. Lastly, the AOC approved the name change of the Strathern Wetlands Park Project to the Rory M. Shaw Wetlands Park Project.

1.1.2 Key Issues

• Machado Lake Phase 1 (Wilmington Drain) Project

- Issue: This project is on Los Angeles County Flood Control District (LACFCD) Property. LACFCD requirements for this project include increasing the capacity of the Wilmington Drain channel by removing sediment from the channel at LACFCD's cost. The agreement between the City (BOS) and LACFCD has not been finalized; but it is needed to secure the needed funding from LACFCD in order to proceed with construction. The Wilmington Drain channel maintenance agreement between the LACFCD and California Department of Fish and Game (DFG) need to be resolved.
- Status: On October 31, 2012, DFG issue a Conditional Incidental Take Permit (ITP) for the Least Bell's Vireo. In addition to the expected conditions, CDFG required the city to provide Performance Security in the amount of \$1,837,717 for implementation of all of the mitigation measures, and an endowment fund of \$479,717 for the long term management of Covered Species Habitat Restoration (CSHR) land. The endowment fund amount is part of \$1,837,717.
- Action: The project team has requested for clarification on ITP conditions that the City is self insured and does not need to provide Performance Security. On February 28, 2013 the AOC approved the use of Proposition O funds to establish the endowment required by DFG.

• Machado Lake Ecosystem Rehabilitation

- Issue: On February 27, 2013 three construction bids were received. The three bids were \$68.8 million, 82.6 million, and \$99 million. The City Engineers' estimate was \$60.3 million.
- Status: The low bid of \$68.8 million has been deemed non-responsive by the BCA Office of Contract Compliance (OCC) for failure by the contractor to submit the proper documents.
- Action: OCC is reviewing the remaining two bids to confirm that they are responsive and responsible, and the BOE is evaluating the bids to determine if they are reasonable.

Westchester Stormwater BMP Project

- **Issue:** Land use agreement between the City (BOS) and Los Angeles World Airport (LAWA) has not been finalized.
- **Status:** Meeting with Mayor's Office, CLA, City Attorneys Office, BOS, LAWA, and BOE held to resolve this issue.
- Action: City Attorney, LAWA, and BOS are working to document and finalize resolution of land use issues.

1.1.3 Project Community Meetings Schedule

4.1 Project Status Report

A brief status report for each project is provided on the following pages. The report identifies key project information, the planned scope of work, progress date, updated construction costs and percentage complete for all Proposition O projects.

The Percentage Complete at the far right hand column of the diagram uses a color-coding system to designate the current phase of each project.

Turquoise	Pre-Design
Yellow	Right of Way Acquisition/ Land Acquisition
Red	Design
Violet	Bid and Award
Green	Construction
Blue	Post Construction

Progress for each project is tracked by a color-coded pie chart. The color-coding system shows work completed in the darker shade of each color and the lighter shade denotes work to be completed. For example, if a project is in design the pie chart begins as light red. As progress is made, a darker red will indicate the approximate percentage of design work completed to date.
