1.0 EXECUTIVE SUMMARY

1.1 Program Summary

In November 2004, voters of the City of Los Angeles passed the Proposition O – Clean Water Bond, authorizing \$500 million of general obligation bonds for projects to protect public health by cleaning up pollution in the City's rivers, lakes, and beaches. The projects are intended to assist the City of Los Angeles in meeting Federal Clean Water Act requirements. Proposition O – Clean Water Bond will also fund improvements to protect water quality, provide flood protection, increase water conservation, provide habitat protection, and create open space.

This monthly progress report summarizes the status of activities and progress of the Proposition O - Clean Water Bond program, for June 2014.

1.1.1 <u>Citizens Oversight Advisory Committee (COAC)</u>, <u>Administrative Oversight</u> <u>Committee (AOC)</u>, and <u>Other highlights</u>

- The June 16, 2014 COAC meeting was canceled.
- The June 26, 2014 AOC meeting was canceled.

1.1.1 Key Issues

- Temescal Canyon Park BMP Ph II & Penmar Water Quality Improvement Ph II Projects
 - **Issue:** Dept. of Recreation and Parks consideration to establish project easements and to obtain project approval from the Board of RAP.
 - **Status:** PW attorney and RAP attorney as well as BOE and RAP top management discussed this issue to identify a workable solution.
 - Action: BOE Real Estate Division staff is working closely with RAP Real Estate staff and management to resolve the issue. The goal is to streamline the process and establish the proper legal tools that satisfy RAP requirements. Prop O staff sent a draft report to RAP for review and approval.

Westchester Stormwater BMP Project

- Issue: Land use agreement between the City (BOS) and Los Angeles World Airport (LAWA) has not been finalized.
- **Status:** Meeting with Mayor's Office, CLA, City Attorneys Office, BOS, LAWA, and BOE held to resolve this issue.
- Action: City Attorney, LAWA, and BOS are working to document and finalize resolution of land use issues.

4.0 PROJECT STATUS REPORT

4.1 Project Status Report

A brief status report for each project is provided on the following pages. The report identifies key project information, the planned scope of work, progress date, updated construction costs and percentage complete for all Proposition O projects.

The Percentage Complete at the far right hand column of the diagram uses a color-coding system to designate the current phase of each project.

Turquoise	Pre-Design
Yellow	Right of Way Acquisition/ Land Acquisition
Red	Design
Violet	Bid and Award
Green	Construction
Blue	Post Construction

Progress for each project is tracked by a color-coded pie chart. The color-coding system shows work completed in the darker shade of each color and the lighter shade denotes work to be completed. For example, if a project is in design the pie chart begins as light red. As progress is made, a darker red will indicate the approximate percentage of design work completed to date.

PROJECT STATUS REPORT

Monthly Progress Report -June 2014

4.2 Project Optimization Status

The table below gives an overview of the optimization scope and status for completed Prop O projects. The optimization tasks for these projects are mandated either by regulatory agency permit requirement, site condition or stakeholders' request.

	Project	Optimization scope	Status
1	Echo Park Lake Rehabilitation	Cisco Ph 2 Debris removal, plant management, and water quality observation for a 4 month period.	Task Work Order was issued on March 24, 2014 and is ongoing.
2	Hansen Dam Wetlands Restoration	Mitigation measures implementation and habitat restoration. Project will prepare annual report for the regulatory agencies' for a period of 5 years.	Progress reports will be prepared by BOE and submitted to the regulatory agencies annually. The last annual report will be submitted in January 2017.
3	Peck Park Canyon Enhancement	Mitigation measures establishment and habitat restoration. Project is required to comply with multiple regulatory agencies' permit conditions for a period of 5 years.	The mitigation measures, consisting of weeding and replanting, are proceeding as anticipated. Progress reports are being prepared by BOE and submitted to the regulatory agencies annually. The last annual report will be submitted in January 2016.
4	Mar Vista Recreation Center Stormwater BMP Ph 2	Optimization of existing BMP to include stormwater beneficial reuse of the harvested water. The goal is to provide irrigation for the planter boxes adjoining the tennis courts located in the northwest side of the park only. Items to be constructed include pump system, irrigation system, pavement, planter curbing, and installation plantings. The irrigation system will operate as a dual reuse/potable water system. When reuse stormwater is not available for irrigation, the system will automatically use potable water.	Permits have been secured from the Los Angeles Department of Building and Safety and the Los Angeles County Department of Health. Bureau of Sanitation and the Department of Recreation and Parks are in the process of revisiting the project scope.
5	Penmar Water Quality Imp. Phase 1	Cisco Ph 2 The separation of the existing baseball field from the BMP system field by lowering of BMP system maintenance hatches and provide fencing adjacent to Rose Avenue.	Project is almost complete. Original scope is complete. Task Work Order was issued to Colich Construction on 5/27/14 for required re-grading between the new fence and Rose Avenue, planting grass, and irrigation system repairs.
		Cisco Ph 3 To restore the functionality of the impaired baseball field resulting from construction of the new BMP system.	Project has not started as of yet.
		Cisco Ph 4 Provide fall-safety equipment and drainage system at the maintenance hatches.	Project has not started as of yet.
